

## Serve your guest with pride

A lot can indeed happen over a cup of tea or coffee. With CAF5 you can now proudly offer your guests and visitors the finest beverages with confidence and let them enjoy their cup their way.

## It is now so easy to create your favourite beverage!

And all this without any time lost. A minute is all it takes for water to boil in an electric kettle.

Have your cup your way, leave the details to us.

D'lecta  
**CAF5**  
My cup, my way!

"The demanding atmosphere of a contemporary office - a whirlwind of meetings, presentations, stringent deadlines and a pile of unanswered mails. The only things that keep me going are those momentary breaks when I slip quietly into my own world, oblivious to the commotion around me with my cup... brewed just the way I like it."

At CAF5 we are passionate about the beverages we serve. In our world there are **no instant teas, no chemical additives and there is absolutely no milk powder.**

We strongly believe in the concept of beverage breaks being personal spaces. We offer you a range of options that allow you to create every cup **just the way you like it.**

### The Finest Selection

A selection of teas picked from the finest gardens, offered in traditional blends or in your favourite flavours and spices - Regular (Assam), Darjeeling, Earl Grey, Masala, Ginger or Green. Besides these, we can also ask our product development team to develop a flavour specially for you.

All these in tea bags (no instant teas) packed in units of 25 each.

And if your passion is Java, we offer you an instant coffee made from pure coffee – no chicory.

Available in convenient single serve sachets packed in units of 25 each.

You can make your tea or coffee exactly to the strength you want. Light or dark, with milk or black, with sugar to taste, CAF5 lets you create your beverage the way you like it, whenever you like it.

The CAF5 package offers include consumables such as sugar, a variety of tea bags, and coffee in single serve sachets.

### Milk Creamers

D'lecta Milké Creamers contain concentrated milk of a consistent quality, with an absolute drop-by-drop control in pouring the milk, offering you a richer beverage.

D'lecta Milké comes to you in convenient options of 7ml, or 10ml for those who like a milkier beverage.

### Convenient Dispenser for 50 cups

We offer you a range of equipment options, but perhaps all you need to start is an inexpensive electric kettle. You can buy one on your own (we recommend a cordless one for convenience) or we can source it for you. Please check for the latest range of equipment options available.

The CAF5 dispenser measures 14" in width, 12" in depth and is 4" tall.

You require just over 1 sq. ft. of counter space for the new CAF5 beverage dispenser. It has been specially designed to fit into the most stringent spaces, be it in your pantry or in your cabin. Ideal for small offices, conference rooms and reception areas, it not only looks good and gels unobtrusively within any space, but is also hygienic, pest-free and maintenance-friendly.
